github.com/LuixzSouza

Full Stack Developer with 3 years shipping websites, e-commerce stores and systems to production for small businesses, owning the whole cycle: requirements with the client, interface, development, deployment and maintenance. I work with **Next.js, React, TypeScript and PHP**, PostgreSQL (Supabase) and MySQL databases, and deploy to Vercel, Hostinger and VPS. Final year of Information Systems at UNIVÁS. I like to understand the business before writing code: what the client needs to sell, organize or automate.

EXPERIENCE

Full Stack Developer — Freelance

Nov 2023 — present

Self-employed · remote · 9 clients

- **Silver Ocean** — sterling silver jewelry e-commerce with category catalog, cart, customer accounts, order tracking and checkout with Pix and cards; admin panel to run the store. Next.js · TypeScript · PHP · Supabase
- **Sorveteria UP** — digital menu, counter POS and cash register system with real-time orders, inventory, store credit and finance; automated tests and CI. Next.js · Supabase/PostgreSQL · Vitest · Playwright · GitHub Actions
- **Berilo Cafés** — specialty coffee e-commerce with brand storytelling, customer authentication, shipping calculation and SEO. Next.js · TypeScript · PHP
- **Thai Cross** — management system for a Muay Thai gym, with automated deployment to a VPS.
- **Estética Ana Clara and Aromas Noma** — landing page and admin panel with scheduling, client intake forms and CRM; digital catalog with an admin system.
- **Casa Pronta Construsilva, Fórmula Idiomas and Agilify** — company websites and landing pages: forms, a 60-question English placement test with automatic result delivery, lead capture funnel; at Casa Pronta, working with a designer and two developers.

IT Support Intern

Jun 2025 — 2026

City Hall of Inconfidentes · on-site

- Built the city hall's new official portal and its admin panel (front-end and back-end).
- Technical support for municipal staff: diagnosing and fixing hardware, software and network issues.
- Maintained the IT infrastructure and supported systems security.
